

# TECHNICAL SALES INTERNATIONAL

the next generation of software

**JOB-Site Solutions** is a Field labor saving tool with round trip connectivity of point data between the office to the field personnel, eliminating the costly hand layout and tape measurement process on site.

**JOB-Site Solutions** is an MEP specific turnkey solution provided by Technical Sales International which includes software, hardware, training and support. TSI Software solutions: **PointBuilder**, **FAB-MEP**, **CAD-Elec**, **CAD-Duct** and **CAD-Mech** provide rich, accurate data content for locating items in the field and *Trimble MEP* Hardware provides the job site hardware to complete the labor saving process.

**JOB-Site Solutions** connects **FAB-MEP** and AutoCAD® based **PointBuilder CAD-Elec**, **CAD-Duct** and **CAD-Mech**, the industry's most widely used design/ drawing tools, to *Trimble MEP*, the industry's leader in total station hardware and software. The ruggedized hand-held unit works in conjunction with *Trimble MEP* Robotic total station to deliver locations of hangers and penetration to the field.

**JOB-Site Solutions** eliminates the need for contractors to produce costly dimensioned paper layout drawings and sleeve/ canning sheets. **JOB-Site Solutions** reads a specific *Trimble MEP* point file format and a digital plan created in **CAD-Elec**, **CAD-Duct**, **CAD-Mech**, **FAB-MEP**, **PointBuilder** (AutoCAD® based) with item locations and detailed descriptions. No tape measures. No paper drawings. No coffee-stained marked-up as-built drawings. *Trimble MEP* hardware is a one-person operation that saves field labor and increases installation accuracy.

**JOB-Site Solutions** Features include:

- Seamless interface with **CAD-Elec**, **CAD-Duct**, **CAD-Mech**
- Seamless interface with **PointBuilder** for Autodesk® products (AutoCAD® 2D and 3D, AutoCAD® MEP and Revit® MEP)
- On-site training and consulting
- *Trimble MEP* exclusive laser pointing to underside of a deck or wall for fast layout
- *Trimble MEP Direct Reflex* technology
